MICROSOFT AZURE FUNDAMENTALS (AZ-900) AND MICROSOFT AZURE DEVELOPER (AZ-204) CERTIFICATION

Become a Software Developer

Fully funded courses now available for businesses across Greater Manchester. There is no cost to you or your business!

From digital literacy and introduction to programming via Cloud and data fundamentals to Software Developer specialisation! Learn to become a modern Software Developer with a blend of online learning and classroom training. Prove your knowledge on the way by passing industry-recognised certifications alongside your daily job.

This Software Developer course is part of the Digital Careers Upskill Programme, and is possible thanks to Greater Manchester Combined Authority's three-year Skills for Growth programme, which is funded through the European Social Fund.

This course is delivered by Serco in partnership with Readynez, an Authorised Microsoft Learning Partner.

To register, or for more information, please contact our Recruitment Team now. Limited spaces available!

WHO IS IT FOR?

This course is for students who are beginning to work with software and IT. Learners will gain foundation knowledge of software development and best practices on how to write good code and develop applications.

The course also teaches future Software Developers about how to work with data and how to develop modern applications in a Cloud-based environment.

Students will learn how to implement Azure computing solutions, create Azure Functions, implement and manage web apps, develop solutions utilising Azure storage, implement authentication and authorisation, and secure their solutions by using KeyVault and Managed Identities.

DURATION: 16 weeks.

WHAT WILL THE QUALIFICATION LEAD TO?

Learners will develop the knowledge and skills needed for multiple roles in IT, including Software Developer and Cloud Developer.
