Is your data safe?

Become a Cyber Security Analyst – fully funded courses now available for businesses across Greater Manchester. There is no cost to you or your business!

From digital literacy via cloud fundamentals to cyber security specialisation! Learn at your own pace to become a Cyber Security Analyst with a blend of online learning and classroom training. Prove your knowledge on the way by passing industry-recognised certifications alongside your daily job.

This Cyber Security Level 3 course is part of the Digital Careers Upskill Programme, and is possible thanks to Greater Manchester Combined Authority's three-year Skills for Growth programme, which is funded through the European Social Fund.

It is delivered by Serco in partnership with Readynez, an approved Gold Standard Microsoft Partner.

WHO IS IT FOR?

This course is for students who are just beginning to work with IT and cloud-based solutions and services, or are new to Azure and Microsoft 365.

It teaches future Cyber Security Analysts how to implement security controls and threat protection, manage identity and access as well as how to protect data, applications, and networks.

Students will learn how to maintain the security posture, identify and repair vulnerabilities by using a variety of security tools, implement threat protection, and respond to security incident escalations.

DURATION

16-week study programme.

WHAT WILL THE QUALIFICATION LEAD TO?

You will develop the knowledge and skills needed for multiple roles in IT, including Cloud Administrator, IT Security Support and Cyber Security Analyst.

To register, or for more information, please contact our Recruitment Team now. Limited spaces available!
