

Are you facing an organisational restructure or the prospect of making hard decisions about staff redundancy?

The Skills Support for Redundancy programme can provide you with funded support which will ensure your employees get access to bespoke training to support them to find suitable employment or their next career.

If you are restructuring your team, the Skills Support for the Workforce programme can offer funded training to help bridge any skills gaps your employees may have as they move into the new structure.

Both Skills Support for Redundancy and Skills Support for the Workforce are co-financed by the Education & Skills Funding Agency and European Social Fund.

Your local Partnership Co-ordinator will work with you to identify the best support available. A wide range of training is on offer through our network of expert training providers including:

IT and digital skills • Business administration • Customer service

Team leading and project management • Health and social care

Warehousing and storage • Communication • Starting your own business
